MSV Representative: _____

Welcome to Montessori Scotts Valley's Summer Program! Our summer sessions are a great way to continue your child's Montessori education and the perfect opportunity to introduce new students to our school.

Montessori follows children to meet their individual developmental needs and offers quality educational opportunities to maximize their education for life. The Montessori approach to education is consciously designed to recognize and address different learning styles. Learning is not focused on rote drill and memorization, rather on activity and exploration. The goal is to prepare children for life, not just school. Students develop self discipline, focus, an internal sense of purpose and motivation, and a profound love for learning.

Our Summer Sessions continue the regular Montessori education for students, with extensions in science, art, cooking and great outdoor experiences! Children have the opportunity to care for MSV's outdoor organic garden, as well as lots of water play and other outdoor activities. Children seize the chance to observe the life cycle in action, as well as a chance to study botany, geography, art, math, reading, and writing skills. Join us for Summer Programs 2009!
